

WikiArt Schema-Guided Image Classification

Model: nvidia/nemotron-3-nano-omni-30b-a3b-reasoning:free | Samples: 20 | Student: 202403234 Jihyun Yang

Sample 1

Human: no

Animal: yes

Flower: no

AI-like: no

Classification reason: The image shows a landscape with trees and water, and two birds flying in the top-left sky. The texture is consistent with traditional etching or drawing, showing clear hand-drawn lines and shading. The anatomical structure of the trees and water reflections appears natural and human-made, with no surreal or inconsistent elements typical of AI generation.

AI appearance reason: The image shows consistent hand-drawn texture, naturalistic composition, and realistic elements like birds and trees, indicating it is a traditional human artwork rather than AI-generated.

Sample 2

Human: yes

Animal: yes

Flower: no

AI-like: no

Classification reason: The image contains human figures (angel in upper left, shepherds in lower right) and animals (cows, dogs in lower right), with no visible flowers. It is a detailed etching showing traditional human artistry with consistent textures and anatomical accuracy, indicating it is human-made rather than AI-generated.

AI appearance reason: The artwork displays intricate etching techniques, realistic human and animal anatomy, and classical composition typical of historical human art, with no signs of AI-generated inconsistencies like texture uniformity or surreal distortions.

Sample 3

Human: **yes**

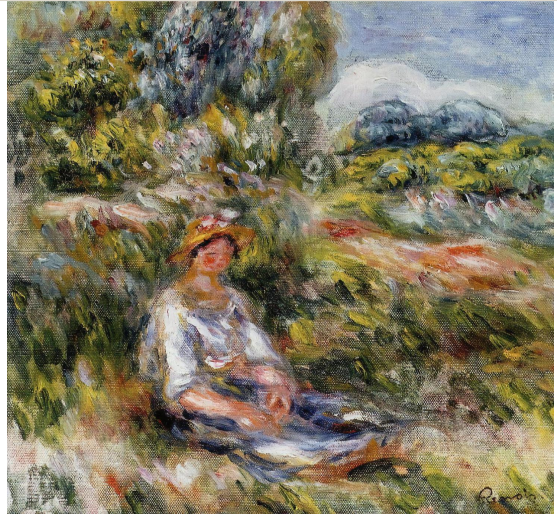

Animal: **no**

Flower: **no**

AI-like: **no**

Classification reason: The image features a human figure in the center with visible brushstrokes and artistic style typical of human-made paintings, not AI-generated textures.

AI appearance reason: The artwork shows clear human brushwork, anatomical details, and artistic style inconsistent with AI generation, indicating it is a historical human artwork.

Sample 4

Human: **yes**

Animal: **no**

Flower: **yes**

AI-like: **no**

Classification reason: Human figure in center-left, flowers in background, traditional brushwork

AI appearance reason: Visible brushstrokes and canvas texture indicate human-made artwork

Sample 7

Human: **no**Animal: **no**Flower: **yes**AI-like: **no**

Sample 8

Human: **no**Animal: **no**Flower: **no**AI-like: **no**

Classification reason: Thick impasto brushstrokes form flowers in center against red background, clearly human-made.

AI appearance reason: Visible brushstrokes and textured petals show human-made technique, not AI smoothing.

Classification reason: Skipped because classification failed: Both classification attempts failed: HTTP 404 from <https://openrouter.ai/api/v1/chat/completion> {"error":{"message":"No endpoints found for google/gemini-2.0-flash-exp:free."},"code":404},"user_id":"user_3De

Sample 10

Human: **yes**

Animal: **no**

Flower: **no**

AI-like: **no**

Classification reason: The image is a traditional portrait of a human figure (center, upper part) with realistic anatomy, lighting, and texture, indicating it is human-made rather than AI-generated.

Sample 12

Human: **yes**

Animal: **no**

Flower: **no**

AI-like: **no**

Classification reason: The image shows human figures (soldiers) near a stone castle in a snowy landscape, with no animals or flowers visible. The textured brushwork and detailed stone architecture indicate a human-made historical artwork, not AI-generated.

AI appearance reason: The image has consistent texture, anatomical accuracy in human figures, and realistic stone details, which are characteristic of
